Reference Report 1-2023
Sparkasse Bremen

Holzmedia

“OUR NEW BUILDING OFFERS A VARIETY OF SPACES FOR ENCOUNTERS AND CREATIVITY – EQUIPPED ACCORDING TO THE MOST MODERN STANDARDS”

Initial situation and objectives:

The sale of the original property in Bremen's city center and the move to a new building near the university were the starting point for a remarkable overall project.

Various, sometimes very flexible room types were created in the innovative building in order to promote new and creative ways of working. It was equipped with state-of-the-art media technology in order to foster effectiveness and efficiency in communication.

The result is a set of representative rooms that are pioneering in technology and function.

Lounges and Huddle Rooms

Consulting and meeting rooms

Conference and training rooms

Auditoriums and conference halls

The variable layout possibilities of the large conference and training rooms as well as the auditorium require unrestricted mobility of the inventory. For the interactive large screens

This is achieved with a total of five Media furniture_S1 XL with integrated height adjustment.

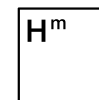

Left: Flexible and variable-sized conference room.

Right: Lectern_X3, height-adjustable and variably positionable.

“ During the conception stage in cooperation with a leading specialist planner, the Holzmedia media furniture was recommended to us because of its functionality and quality, its representative appearance and its sustainable flexibility.

And we are very satisfied with the result of our decision and the investment associated with it.”

Lutz Laue
Projekt Manager

Holzmedia

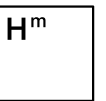

“ THIS GIVES US A HIGH DEGREE OF VARIABILITY – IN LONG-TERM ROOM PLANNING AND DAILY USE ... ”

Large auditorium, also divisible into several rooms of different sizes, here completely open.

Rear view of the three S1 XL, with the simple elegance of finished rear panels along the window front.

Holzmedia

“... FOR INDIVIDUAL CONSULTING AS WELL AS FOR CONNECTED,
INTERDISCIPLINARY AND AGILE COOPERATION AMONG OUR EMPLOYEES”

Interior design, media furniture and media technology combine in a successful symbiosis to create representative rooms.

They offer well-thought-out solutions for interactive work on height-variable displays or for hybrid consulting for customers using VC systems.

Top: Board meeting room with Media furniture_S1 XL, wall-mounted, in lava black with interactive 98" display.

Top center: Consulting room with S1 L, wall-mounted in arctic white with 75" display and VC soundbar below the display.

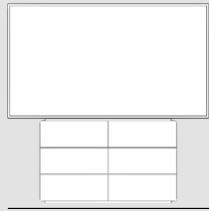

Top right: Small consulting room with free-standing UC Display column_W6 with 55" display – still without VC technology, which can be retrofitted.

Bottom left: Huddle room for creative work at standing height, with mobile S1 L with 75" display and VC soundbar

Bottom right: Training room with a large, interactive projection screen on a Holzmedia S2 XL³ and an interactive 98" display on a mobile S1 XL.

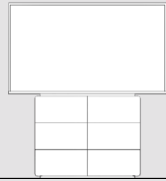

46 multifunctional rooms – equipped with 52 pieces of media furniture, assembled from one modular system: Holzmedia Elements.
